

WarrenEnergy

Community Fund 2025

Our Ambitions

The Warren Energy Community Fund has been created to support local projects and groups local to the biogas facility.

We aim to be a positive force in the local community providing economic, social and environmental benefits to the local community in which we operate.

We also aim to work closely with local residents and stakeholders to ensure that local community benefits are seen directly as a result of our support.

Our Support

Each year the fund will be open to applications for financial support from eligible organisations within a chosen radius of the biogas facility. A fund of £7,500 per annum will be available for selected projects/organisations who meet the funding requirements. This community fund will be available every year over the operational life of the plant, with new projects and groups being selected each year.

Key Questions

How much is the fund?

£7,500 will be made available each year for the operational lifetime of the plant.

What is the area of benefit?

Any project/organisation within the locality of the site

Who can apply?

Locally led and run community organisations or projects

Local schools and colleges

Locally led and run charities

Application Process:

Applications to the fund can be made online by using the form below.

Requirements:

Funds are only available the purpose of supporting local environmental, educational, amenity or other appropriate, not for profit initiatives within the area.

The recipient of the funds shall not have a commercial interest or derive any commercial/personal financial benefit from the project.

Each applicant must demonstrate its ability to fulfil one, or more of the following objectives:

- Social sustainability
- Environmental sustainability
- Educational promotion

This is to say the benefit to the community must include a tangible and recognisable action or actions, which might be educational, environmental or promote social interaction between or within the community.

Process:

- Applications will only be considered by submitting the formal application form.
- All applications must answer every question and section in the application form.
- While there is no minimal level of funding available, each application must demonstrate the amount of supporting funding required.
- Successful applications are required to complete an annual report on progress and achievements.
- Successful applicants can apply for further funds in consecutive years and will be considered in line with other eligible applications.

Dates:

- The application process is open from January 2025
- The deadline for submitting your application will be 30th April 2025
- The trustees will review applications during May 2025
